Caution: Any changes or modifications made to this equipment not expressly approved by Honeywell International Inc. may void the authorization to operate this equipment.	MISE EN GARDE: Tout changement ou modification apporté(e) à cet équipement qui n'est pas expressément approuvé(e) par Honeywell International Inc. peut annuler l'autorisation d'utiliser cet équipement.	Mise en garde: tous les changements ou les modifications apportés à cet équipement non expressément approuvés par Honeywell International Inc. peuvent annuler l'autorisation d'utiliser cet équipement.	Attenzione: qualsiasi variazione o modifica apportata a questa apparecchiatura, non espressamente approvata da Honeywell International Inc. potrebbe annullare l'autorizzazione concessa all'utente per utilizzare l'apparecchiatura.	Vorsicht: Von Honeywell International Inc. nicht ausdrücklich genehmigte Veränderungen an diesem Gerät können dazu führen, dass die Betriebsgenehmigung für dieses Gerät erlischt.	Precaución: Cualquier modificación o cambio realizado en este equipo, no expresamente aprobado por Honeywell International Inc. puede anular la autorización para utilizar este equipo.	Precaución: cualquier cambio o modificación a este equipo que no esté expresamente aprobado por Honeywell International Inc. puede invalidar la autorización para usarlo.
Atenção: qualquer alteração ou modificação não aprovada expressamente pela Honeywell International Inc. neste equipamento poderá invalidar a autorização de operá-lo.	注意: 对本设备进行任何未经 Honeywell International Inc. 明确准许的更改或修改, 可能会使操作本设备的授权失效。	注意: 凡未經 Honeywell International Inc. 明確准許即擅自變更或改造本設備者, 可能無權再操作本設備。	警告: Honeywell International Inc. の明示的な承認なしに、この機器を変更または改造すると、この機器を操作する権限が無効になる場合があります。	주의: Honeywell International Inc. 에 의해 확실한 승인을 받지 않은 방법으로 변 장비를 변경 또는 개조하는 경우 장비를 작동할 수 있는 승인이 취소될 수 있습니다.	Внимание! Любые изменения или модификации данного оборудования без одобрения Honeywell International Inc. могут привести к запрету эксплуатации данного оборудования.	تحذير: قد تؤدي أي تغييرات أو تعديلات على هذا الجهاز غير مصادق عليها من شركة Honeywell International Inc. إلى إلغاء ترخيص تشغيل هذا الجهاز.

For body worn operation, this device has been tested and meets the limits regarding human exposure to electromagnetic radiation set forth in related FCC, IC and CE rules, guidelines and standards for use with the following body worn accessory: holster. Use of other accessories may not ensure compliance with the mentioned rules.

Funcionnement près du corps: ce dispositif a été testé et s'avère conforme aux règles et lignes directrices des normes FCC, IC et EC, relatives aux limites d'une exposition humaine sécuritaire au rayonnement électromagnétique pour une utilisation près du corps de l'accessoire suivant: holster. L'utilisation d'autres accessoires peut ne pas assurer la conformité avec les règles mentionnées.

802.11 Caution: A Wireless Network Administrator should review the operating restrictions and use with a properly configured access point.

Models: EDA52-0, EDA52-1
FCC Part 15 Subpart B Class B

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio or television technician for help.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. Honeywell International Inc. is not responsible for any radio or television interference caused by unauthorized modifications of this equipment or the substitution or attachment of connecting cables and equipment other than those specified by Honeywell International Inc. The correction is the responsibility of the user.

Use only shielded data cables with this system.	Utiliser uniquement des câbles de données blindés avec ce système.	Utilisez uniquement des câbles de données blindés avec ce système.	Utilizzare solo cavi dati schermati con questo sistema.	Für dieses System nur abgeschirmte Datenkabel verwenden.	Utilice sólo cables de datos blindados con este sistema.	Use únicamente cables protegidos para datos con este sistema.
Use somente cabos de dados blindados com este sistema.	此系統只能使用屏蔽数据电缆。	此系統只能使用包覆的資料傳輸線。	このシステムにはシールド付きデータケーブルのみを使用してください。	이 시스템에는 차폐된 데이터 케이블만 사용하십시오.	Используйте с этой системой только экранированные кабели передачи данных.	استخدم فقط كابلات البيانات المصحح مع هذا النظام.

Models: EDA52-0, EDA52-1
Canadian Compliance

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:
1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.
CAN ICES-3 (B)/NMB-3 (B)

Models: EDA52-0, EDA52-1
Conformité à la réglementation canadienne

Cet appareil est conforme aux normes RSS avec exemption de licence d'Industrie Canada. Son fonctionnement est assujéti aux conditions suivantes:
1. Cet appareil ne doit pas causer de brouillage préjudiciable.
2. Cet appareil doit pouvoir accepter tout brouillage reçu, y compris le brouillage pouvant causer un fonctionnement indésirable.
CAN ICES-3 (B)/NMB-3 (B)

Models: EDA52-0, EDA52-1
802.11a Radio Precaution Statements (North America)

- 802.11a wireless LAN 5150 to 5250 MHz (5.15 to 5.25 GHz) (5 GHz radio channels 36 - 48) is restricted to indoor operations to reduce harmful interference to co-channel Mobile Satellite System (MSS) operations.
- The maximum antenna gain permitted for devices in the bands 5250-5350 MHz and 5470-5725 MHz shall comply with the EIRP limit.
- The maximum antenna gain permitted for devices in the band 5725-5850 MHz shall comply with the EIRP limits specified for point-to-point and non-point-to-point operation as appropriate.
- Be advised that high-power radars are allocated as primary users (i.e., priority users) of the bands 5250-5350 MHz and 5650-5850 MHz and that these radars could cause interference and/or damage to LE-LAN devices.

Models: EDA52-0, EDA52-1
802.11a Énoncé de mise en garde radio (Amérique du Nord)

- Mise en garde: 802.11a sans fil LAN 5150 à 5250 MHz (5.15 à 5.25 GHz) (fréquences radio 36 à 48 de 5 GHz) est limité aux opérations en intérieur pour réduire les interférences nuisibles aux opérations du système mobile par satellite (MSS) dans le même canal.
- Mise en garde: Le gain en puissance d'antenne maximal autorisé pour les périphériques dans les bandes 5250 à 5350 MHz et 5470 à 5725 MHz doit respecter la limite EIRP.
- Mise en garde: Le gain en puissance d'antenne maximal autorisé pour les périphériques dans les bandes 5725 à 5850 MHz doit respecter les limites EIRP spécifiées pour les opérations point à point et non point à point le cas échéant.
- Mise en garde: Sachez que les radars de haute puissance sont désignés comme utilisateurs principaux (c.-à-d. utilisateurs prioritaires) des bandes 5250 à 5350 MHz et 5650 à 5850 MHz, et que ces radars peuvent causer des interférences ou endommager les périphériques LE-LAN.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter, except tested built-in radios.

Cet appareil et son antenne ne doivent pas être situés ou fonctionner en conjonction avec une autre antenne ou un autre émetteur, exception faites des radios intégrées qui ont été testées.

The County Code Selection feature is disabled for products marketed in the US/Canada.

La fonction de sélection de l'indicatif du pays est désactivée pour les produits commercialisés aux États-Unis et au Canada.

Model: EDA52-0, EDA52-1
Para su uso en México, la operación de este equipo está sujeta a las siguientes dos condiciones:
1. es posible que este equipo o dispositivo no cause interferencia perjudicial y.
2. este equipo o dispositivo debe aceptar cualquier interferencia, incluyendo la que pueda causar su operación no deseada.

Honeywell International Inc. hereby declares that the radio equipment types, non-specific SRD (Model: EDA52-0, EDA52-1) and cellular (Model: EDA52-1), are in compliance with the following directives: • 2014/53/EU Radio Equipment • 2011/65/EU RoHS (Recast) The full text of the EU declaration of conformity is available at the following internet address: honeywell.com/PSScompliance . European contact: Honeywell Productivity Solutions BV Burgemeester Burgerslaan 40 5245NH Rosmalen The Netherlands	Honeywell International Inc. déclare par la présente que les types d'équipement radio, SRD non spécifiques (modèles: EDA52-0, EDA52-1) et cellulaires (modèle: EDA52-1) sont conformes aux directives suivantes: • Équipement radio 2014/53/UE • 2011/65/UE RoHS (Refonte) Le texte intégral de la déclaration de conformité de l'UE est disponible à l'adresse Internet suivante: honeywell.com/PSScompliance . Personne-ressource en Europe: Honeywell Productivity Solutions BV Burgemeester Burgerslaan 40 5245NH Rosmalen Les Pays-Bas	Honeywell International Inc. dichiara che i tipi di apparecchiature radio, SRD (dispositivi a corto raggio) non specifici (Modelli: EDA52-0, EDA52-1) e cellulari (Modello: EDA52-1), sono conformi alle seguenti direttive: • RoHS 2011/65/UE (rifusione) Il testo completo della Dichiarazione di conformità UE è disponibile al seguente indirizzo Internet: honeywell.com/PSScompliance . Contatto in Europa: Honeywell Productivity Solutions BV Burgemeester Burgerslaan 40 5245NH Rosmalen Paesi Bassi	Honeywell International Inc. erkl�rt hiermit, dass das nicht-ma�her spezifizierte SRD (Modelle: EDA52-0, EDA52-1) bzw. Mobilfunkger�t (Modell: EDA52-1) folgende Richtlinien erf�llt: • Richtlinie 2014/53/UE (Funkanlagen) • 2011/65/UE RoHS (Recast) Die vollst�ndige EU Konformit�tserkl�rung finden Sie im Internet unter: honeywell.com/PSScompliance . <p>Warning! To prevent possible hearing damage, do not listen at high volume levels for long periods.</p>	<p>Avertissement: A pleine puissance, l'écoute prolongée peut endommager l'audition de l'utilisateur.</p>
------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------

Microwaves
The radio in the ScanPal EDA52 RF terminal operates on the same frequency band as a microwave oven. Therefore, if you use a microwave within range of the RF terminal you may notice performance degradation in your wireless network. However, both your microwave and your wireless network will continue to function.

LED Safety
LEDs have been tested and classified as "RISK GROUP 1 (Low Risk)" to the Standard: IEC 62471:2006.

Models with Image Engine: S0703 Laser Compliance and Precaution
This device has been tested in accordance with and complies with IEC60825-1:2014, 21 CFR 1040.10 and 1040.11, except for conformance with IEC 60825-1 Ed. 3, as described in Laser Notice No. 56, dated May 08, 2019. EDA52 devices that include a laser caution label (see far right) affixed to housing are a CLASS 2 LASER PRODUCT. This product has a maximum output of 1 mW at 630-680 nm.

Caution: Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure. Mise en garde : l'utilisation de contrôles ou d'ajustements ou de performance de procédures autres que ceux spécifiées dans la présente peut provoquer une exposition dangereuse au rayonnement. 若使用的控制、調整或執行等程序並非依照使用者文件中所指示，可能會發生危險，導致輻射曝露。

CAUTION LASER RADIATION DO NOT STARE INTO BEAM CLASS 2 LASER PRODUCT. RAYONNEMENT LASER N°56 REGA - RDER DANS LE FAISCEAU APPAREIL LASER DE CLASSE 2. MAX. 1mW, 630-680nm. Pulse duration of 10.8nsSec. IEC 60825-1:2014 Comp. class with 21 CFR 1040.10 and 1040.11 except for conformance with IEC 60825-1 Ed. 3, as described in Laser Notice No. 56, dated May 8, 2019.

RF Exposure Information (SAR)
This mobile phone meets the government's requirements for exposure to radio waves. This phone is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government and Canadian Government.

The exposure standard for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the government FCC/IC is 1.6 W/kg and for Europe 2 W/kg. Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output.

La limite du DAS établie par la Commission fédérale des communications FCC/IC est de 1.6W/kg et de 2W/kg pour l'Europe. Bien que le DAS soit déterminé en fonction du plus haut niveau de puissance certifié, le niveau réel du DAS du téléphone en cours d'utilisation peut être nettement inférieur à la valeur maximale. Ceci s'explique par le fait que le téléphone est conçu pour fonctionner à plusieurs niveaux de puissance ainsi que pour utiliser uniquement le puissance requis pour atteindre le réseau. En général, plus vous vous trouvez à proximité d'une antenne de station de base sans fil, plus la puissance de sortie sera faible.</p>	<p>Model EDA52-1 DAS FCC Les valeurs DAS FCC les plus élevées pour les conditions d'utilisation des accessoires portés sur la tête et le corps sont les suivantes: 0.70 W/kg (1g) and 1.43 W/kg (1g).</p>	<p>Model EDA52-0 DAS FCC Les valeurs DAS FCC les plus élevées pour les conditions d'utilisation des accessoires portés sur la tête et le corps sont les suivantes: 0.27 W/kg (1g) et 0,67 W/kg (1g).</p>

Model EDA52-0 Hearing Aid Compatibility (HAC) Consumer Information
a) This equipment complies with Part 68 of the FCC rules and the requirements adopted by the ACTA. In the battery well of this equipment is a label that contains, among other information, a product identifier in the format US: HD51PNANEDA52-0. If requested, this number must be provided to the telephone company.
b) The telephone company may make changes in its facilities, equipment, operations or procedures that could affect the operation of the equipment. If this happens the telephone company will provide advance notice in order for you to make necessary modifications to maintain uninterrupted service.
c) Should you experience trouble with this equipment, please contact Honeywell International Inc, 13509 South Point Blvd, Ste.100, Charlotte, NC 28273, Tel: 800-782-4263 for repair or warranty information. If the equipment is causing harm to the telephone network, the telephone company may request that you disconnect the equipment until the problem is resolved.
d) Please follow instructions for repairing if any (e.g. battery replacement section); otherwise do not alternate or repair any parts of device except specified.
e) This equipment is hearing aid compatible.

Model EDA52-1 Hearing Aid Compatibility (HAC)
The standard for compatibility of digital wireless devices with hearing aids is set forth in American National Standards Institute (ANSI) standard C63.19. ANSI C63.19 contains these two sets of standards:
• An "M" rating from M1 to M4 for reduced radio frequency (RF) interference to enable acoustic coupling with hearing aids that do not operate in t-coil mode.
• A "T" rating from T1 to T4 to enable inductive coupling with hearing aids operating in t-coil mode.
A digital wireless handset is considered hearing aid compatible for acoustic coupling if it meets at least an "M3" rating under the ANSI standard. A digital wireless handset is considered hearing aid compatible for inductive coupling if it meets at least a "T3" rating under the ANSI standard.
M-Ratings: Devices rated M3 or M4 meet FCC requirements and are likely to generate less interference with hearing devices than devices that are not labeled. M4 is the superior/higher of the two ratings.
T-Ratings: Devices rated T3 or T4 meet FCC requirements and are likely to be more usable with a hearing device's t-coil than unrated devices. T4 is the superior/higher of the two ratings.
These ratings are not guaranteed. Results will vary depending on the level of immunity of your hearing device and the degree of your hearing loss. If your hearing device happens to be vulnerable to interference, you may not be able to use a rated device successfully. Trying out the device with your hearing device is the best way to evaluate it for your personal needs.
When some wireless devices are used near some hearing devices such as hearing aids and implants, users may detect a buzzing or humming noise. Some hearing devices are more immune than others to this interference noise. Wireless devices may also vary in the amount of interference they generate.
The more immune the hearing aid device is, the less likely one is to experience interference noise from the wireless device. Hearing aid devices may also be rated. Adding the ratings of the hearing aid and the device can predict the usability of the two devices together:
• Any combined rating equal to or greater than six offers the best use.
• Any combined rating equal to five is considered normal use.

These models have been tested and rated for use with hearing aids for some of the wireless technologies that they use. However, there may be some newer wireless technologies used in these devices that have not been tested yet for use with hearing aids. It is important to try the different features of these devices thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Consult your service provider or the manufacturer of the device for information on hearing aid compatibility. If you have questions about return or exchange policies, consult your service provider or device retailer.

The following devices are currently offered:

Model	HAC Rating	Air-Interface	C63.19 Version
