MATRIX 320™ 5MP

The next step beyond intralogistics traceability

DATALOGIC

Matrix 320 5MP image based code reader has been designed to EMPOWER INTRALOGISTICS TRACEABILITY applications providing benefits for End Users and Machine Builders. Matrix 320 5MP brilliantly solves traceability applications in Intralogistics, Distribution, 3PL, Retail, logistics and in the Shop Floor and Factory Automation.

Matrix 320 5MP offers a COMPLETE SOLUTION and TOP PERFORMANCE to achieve higher productivity at the best price/performance ratio. Matrix 320 5MP has excellent reading performance with a powerful smart configurable lighting system allowing 2 color options (blue, white) and 2 power options (Very and Ultra High Power) able to solve extremely challenging traceability applications.

To boost productivity in Intralogistics and Logistics segments, hands-free operations enjoy higher performance with Matrix 320 5MP snappy reactivity because of its outstanding Depth of Field (DOF), a new grid pattern aiming system, a new embedded distance sensor for the best user experience and reading throughput.

Matrix 320 5MP modular design with a complete portfolio of lenses, lightings, filters, and accessories provides the highest market application flexibility in the selection and in the combination of the parts reducing the feasibility time and cost, helping system integrators to find effective powerful solutions for vertical applications in any industrial environment to grow the business opportunities.

Matrix 320 5MP is very easy to install with its new embedded orientation sensor, the new fast replacing bracket, the smart adapter that allows live focus and iris calibration without exposing the inside product to harsh environmental condition, the improved integrated aiming system, the embedX-Press button HMI and DL.Code software powered by an intuitive autolearning/autosetup features.

Full industrial connectivity, overall compactness, rotating connectors, a top industrial grade make Matrix 320 5MP extremely easy to fit into every industrial environment. New configurable 360-degree multicolor read-feedback and Green /Red Spot technology provide an outstanding visual feedback. Performance Analysis is also simplified by a new web interface to monitor the reader with a complete suite of diagnostics that leverages a new generation of fast FTP image saving. The new web Device Discovery simplifies the access and monitoring of all the readers in the network.

Matrix 320 5MP models together with Matrix 320 2MP, compliment the current Matrix family of Matrix 120 and Matrix 220, once again establishing Datalogic leadership in Stationary Industrial Scanners.
